SDV 9200 VIDEOCONFERENCING KIT

The SDV 9200 is Aethra multimedia desktop provided with a single board with ISDN, audio and video functions. The kit includes camera, earphones and videocommunication software. The integration of the SDV 9200 will convert your PC into a voice, video and data communication center for higher productivity, allowing for video sessions over LAN.

The SDV 9200 kit for PC allows for the integrated transmission of audio and full motion video, enhanced by multimedia software with application sharing for interactive participation in the session.
